

I have purchased XM Satelite Radio in my home, also in my car, have purchased XM Satelite Radio for my daughter due to the wonderful service. I have also purchased stock under two different accounts to show my support for this wonderful company. The XM Instant Traffic & Weather channel has provided me with the continuous, accurate and up-to-date coverage that I have always wanted for my area. In my area, there is not another radio station to provide me with this coverage and information. Also, when traveling and going into other areas that I do not know the stations of, it has been an immense aid to be able to tune into XM Instant Traffic & Weather to find out the conditions of the area. It would be a great loss if it was to be unwillfully taken off of the air not only to me, but to all of the other supporting users.
